Superintendent Report

Old Elementary:

As we try to reach a solution regarding the old Elementary School, I am requesting that a board committee be convened to provide guidance on the subject. This will prevent me from continuing to look foolish by trying to travel a road this board does not wish to travel. The committee could be involved with the discussions that will need to occur with Phantom Fireworks and also help set guideline for the citizen committee if they are permitted to continue should the building be leveled. There also may be some concerns about certain item if only a portion of the building is to remain.

In setting up a board committee for a special task, the committee should consist of no more than four members with the president or vice president being an ex officio nonvoting member of the committee. If you would be so gracious to volunteer for the committee, please submit you name to Anita. I will accept the first four volunteers and then consult with the president and vice president to determine which one of them will serve as the ex officio member along with the Superintendent.
