Superintendent Report

High School Renovation

Plan Con

At present time we are waiting for completion of some of the rooms they are working on before we will be able to give up additional rooms for the renovation. The next areas are the home economics room, chemistry room, and the rooms underneath the chemistry room. Also, we will be doing the gymnasium one half at a time.

Next week they will be putting the windows in the locker room areas and demolishing the ceilings. Therefore, students will be missing physical education class that week. Also, next week they will begin work on the bathroom renovation in the lower hallway.

Energy Savings

They have rebuilt the damaged boiler and connected the natural gas. However, they are still having some problems with the electronics in order to get it to fire properly. So we are still heating with the one boiler and using propane.

Anita Munson

Superintendent/Board Secretary
Southern Fulton School District
