

Administrative Bulletin to Board Members

July 11, 2014

Superintendent Report

Asbestos Abatement

With the renovation of a building that has asbestos, the abatement process tends to be one of the biggest, evolving and ever changing issues. On the agenda is an abatement change order for the auditorium. I have submitted this one at this time so work can continue to flow. We will have some credits on the abatement side because there were several areas that did not have asbestos that were supposed to be abated. When testing the auditorium for abatement it was originally determined to not have asbestos. The test that was conducted was done along the side of one of the aisles. During the last construction project additional 12 inch tile were laid on the outside of the aisles to provide a flat surface in order to put down the carpet therefore in the original design the auditorium was not to be abated.

Board Meeting Walkthrough

Walkthrough for construction will begin at 7:00 p.m. and the work session will begin at 7:30 p.m. on Tuesday, July 15, 2014.

Construction Meeting Minutes

I have attached a copy of the construction meeting minutes from the June 11, 2014 meeting.

PSSA Scores

Mrs. Hendershot and I have had a chance to review PSSA scores for grades 3 through 8. I have asked Mrs. Hendershot to give you a first look at the scores at Tuesday night board meeting. We feel there are many positives but at the same time we realize there are several areas that have improved but will definitely need to continue to do so.
