Tara Will
Superintendent

Allen Morton
Board President

Dear Southern Fulton Families & Community,

On Friday May 18, 2018, our administration was made aware of a possible threat at our High School. The Pennsylvania State Police were notified and conducted an investigation. The findings of the investigation indicate there is no threat to our students at this time. The efforts of the Pennsylvania State Police are greatly appreciated in responding to and investigating this situation.

Our student's safety is a priority and our efforts to provide a safe and secure learning environment are ongoing. In addition to having a comprehensive safe school plan in place, the district contracted with a protection and security company this past March to conduct a school safety assessment. The assessment took place last week. We will be receiving a full report in the next few months. The finding will be shared with the School Safety Assessment Committee and used to further enhance school safety measures in the 2018-19 school year.

Families also play a vital role in helping our schools remain safe. If you have a safety concern, please make sure to immediately tell someone at the school. By working together, we can ensure that our schools remain a safe learning environment for all students and staff.

Sincerely,

Tara Will
Superintendent
