Donations to support the students' learning may be made in any of the following ways:

General Donations - All monies received will be spent on enhancing the education of our students.

Endowments - These gifts represent a two-fold purpose of preserving the value of the gift while using the earnings to promote educational programs in the District.

Adopt an Elementary Classroom or High School Subject Area - This donation is targeted directly to a classroom or subject area. Relatives or friends of students can directly support a classroom or subject by identifying it with their gift.

Donor Designated - Your contribution will be used to support programs, books, field trips, etc. to provide additional learning opportunities for students.

Vehicle Purchases - Several local dealerships have agreed to donate a minimum of \$50 with each vehicle purchase. To obtain a list of these dealerships, simply contact any Foundation board member.

*All donations must meet curriculum guidelines.
